My heart breaks when I see the narrative of violence being pushed. This was the most peaceful mass gathering of people in the history of humanity.

I was there. We hung out at the Capitol for an hour and then went home because it was cold and windy. It was maybe the most beautiful moment of my life. Never felt so proud to be an American before.

I agree 100%. I left around 530, because I knew what to say just say it's a unlawful assembly, people start going to jail! I wasn't willing to go to jail that day, and yes it was cold! I too thought it was one of the best days of my entire life I've I've never been more proud to be an American, I stand with you!

You're trying to make sense of it, but the whole point of the "violence", "terrorist", "white supremacist" rhetoric is solely designed to suppress the movement, peaceful or not. Even a peaceful movement is a grave threat to their power. It is all propaganda to demoralize you and to turn others against you.

I am not demoralized, I don't give a fucking rats ass what anybody thinks about me. That's where you're wrong kiddo! I have zero fucks left to give! I don't care what anybody thinks! I haven't for quite some time now! You see - demoralization only works if somebody else cares about what you think about them. Fear of Covid only works if you're in fear for your life and you think you're gonna die every time you walk out of your house! I don't care if I die. I know where I'm going when I die, so it's not a big deal to me! I'm not afraid of China virus, I'm not even afraid of what other people think about me, I continue to stand my ground! Nothing, and I mean nothing, will ever change that! You should try it sometime! The fact of the matter is this, no matter what happened that day, people are paying attention now aren't they! Whether it's a good press, or bad press, they're paying attention now! A GIANT VOICE!

So true... I used to be a DJ. The worst part was seeing how fucked up everyone is, and the creepers molesting the underage girls (who are high AF and rolling).

At least in nightclubs, it was mostly booze and coke powering the dancers, and they were adults. These pedo carnivals are designed for one thing, \$150-\$300 a head.

...there were over 1 million patriots there that day and it was (I think) our smallest DC rally do far! Imagine if everyone brought their guns and had a single focused plan!

Shit! We can roll them anytime we want!

I'm tired of the Jan 6 rally being labelled as a "riot" while "antifa"/"blm's" Summer of Terror is continuously labelled as "peaceful protests." Nazicrats incited violence in the public forum and it's "all good" but Trump is an "insurrectionist" for telling his people to "go home in peace."

The Mississippi plus all of the rivers feeding into it.

Access to those rivers could be leverage economically if surrounding states and towns cooperated.

Louisiana and Mississippi should be two of the wealthiest states in the nation, but alas, they are not.

Antifa CAUSED the whole riot in the first place!!! There was this one Antifa guy (he's been arrested now) who tricked about 1000 peaceful, but not particularly bright, Patriots to illegally break into the Capitol, attack police

officers, and threaten to kidnap and/or kill top political leaders. So.. GTFO communist!

I think the police escalated it. If they let them march in, to the public building, nothing would have happened. They started attacking people who were just walking forward.

No. Get facts straight.

Patriots followed velvet ropes straight into the building, invited by DC Police. That isn't "illegally breaking in."

Who "threatened to kidnap and/or kill" *anybody*? Regurgitating what MSM spews doesn't count.

[permalink](#) [parent](#) [save](#) [report](#) [block](#) [reply](#)

▲ 1 ▼

= [subjugationistheplan](#) 1 point 5 hours ago +1 / -0

Yes, get the facts straight. This unbelievable stupidity is why we just handed the CCP the biggest victory they've ever had. Those cops on the receiving end of bear spray, being beaten with american flags, bleeding from the mouth from being crushed in doors, having their guns taken with threats to use their own guns to kill them weren't inviting patriots to enter the capitol using the velvet ropes. There are videos of crowds chanting to "hang pence", etc.

▲ 1 ▼

= [medicpatriot](#) 1 point 1 hour ago +1 / -0

Yeah see, only the people trying to break in and the cameras saw this. The peaceful people on the outside just thought it was a bunch of flag waving. Hence why I initially said I supported it. Heck, I don't really have a lot of sympathy for cops and politicians, but I'd never do something like that.

The violence started long before Trump even got finished with his speech. That was in the daytime! I'm not sure what you're talking about what happened at night at the capital, because most people, and I was there, left before 6 PM because there was a curfew. After the initial violence of Ashley BABBIT being shot, it was a completely peaceful protest! The initial violence started, with BLM and antifa inciting it. You joined 46 minutes ago, and I know you're here just to cause problems. But there's nothing that you can say that can divide us, demoralizes, or make us feel anything different about what happened that day! You're no different than the man who stood by and watched Ashley Babbitt be shot! You're an agent provocateur in every sense of the word! Go back to the hole that you came from, and stir the pot elsewhere!

protests for what? what does BLM even mean? its just a slogan, 3 words. if black lives mattered to them, they would address black on black violence, for one. also they wouldnt have obvious marxist ties and talk about weird mental gymnastics on anti-racism and thout policing.

the optics is the message nowadays. its like introducing a "protect the children" bill in congress. it might be 1% about protecting children in some esoteric way, but then 99% fluff and porkfat. If you oppose it, you oppose protecting children, you monster!

fuck that, fuck blm, fuck their optics, fuck it all. all lives are hierarchically and contextually important. Elon musk's life is more important than some fucking jogger in compton on food stamps or some instagram influencer in new york. Trump's life is more important than any dem in congress. prove me wrong.

i know it depends on what importance is, but in terms of ability to significantly affect a positive outcome for our country and the world as a whole... sorry to state the obvious, but not all lives matter equally. in fact, you need to EARN your life mattering.

Single cell organisms is enough to say life on Mars but not in the womb. Do what you want, just stop lying about what you do to try and win a moral victory. Accept the truth and accept who you are.

Minnesotan here. Can confirm. Minneapolis looked (and still does) like a warzone. Mass destruction of buildings. Fires. Looting. Graffiti. Assault. For them to call it peaceful protesting is simply false. So many stores were looted, not in the name of George Floyd, but in the name of greed and wanting free stuff.

Heh. We played hockey instead of having gangfights. I never lost a game. Usually we had 5 people, while they had 15. We had to clear off the parking lot, get all the cars out of the way. When our 5 could have our half of the playing field clear and we were warming up while they were still stuck with more than half their cars, It was a substantial psychological victory. Pretty funny to see adults looking at us all terrified like what the fuck where's my car, while we were in 7th and 8th grade.

You may have missed this, but our best plan is to have all Patriots in TX and secede. There is some talk about a bunch of other states seceding too, but concentration of force is winning strategy.

TX has had some winning hockey programs, which is just strange for me to think of.

It's a shame for Antifa.

Antifa had a real opportunity to cause some damage where it would have actually mattered most. Not at a private business, not at some empty police station or building. They had a shot to actually change things up in the capitol of the nation where people with power were.

But they didn't even try. They showed up to incite and then some of the public facing ones posed for a photo op.

They didn't dare try to actually harm any of the congress members that denounced the violence. They steered clear away from them.

Considering how Antifa is totally happy to commit violence, I wonder what their hangup was?

I wonder who they work for?

Their timing sure suggests they didn't want to hear no evidence of voter fraud! Imagine if the hearing had gone on another couple of hours. It would've put into the congressional record unexplained fraud and irregularities, and no matter what else they burn, the record would reflect that they voted for Biden despite the mountain of evidence.

If there was someone ANTIFA surely helped that day, it was Biden, who got confirmed without any scrutiny of the case against him.

Still haven't seen any estimates for the number of people who were at the speech and later at the Capitol building.

Imagine if a crowd that size of *actual terrorists* gathered, what would have really happened. This is the narrative the news wants the world to believe, however.

Part of the problem was they didn't actually name the enemy - Islamic Jihad.

Due to PC we had instead the vague 'War on Terror'.

Imagine if WWII had been the 'War on Tanks' or the 'War on U-Boats' - nobody would have known the Germans or Japanese were even involved.

How can you confront an enemy you dare not name?

Maybe the biggest indication of philosophical and moral differences: One group removed their masks and protested in broad daylight. The other cloaked themselves in black clothing, masks, and the cover of darkness. They hit businesses and law enforcement during hours they were less equipped to defend themselves.

They were even willing to get out of bed early enough to establish a presence at a strategic spot. They wore black block, but in broad daylight this time.

The same evil bastards that refused to let the national guard use any force against the BLM/Antifa rioters and called the federal agents that Trump sent to Portland and Seattle to protect federal property under siege from far-left domestic terrorists, 'stormtroopers,' have authorized the national guard to use lethal force against those who show up to protest this sham that is taking place in our nation's capitol.

If you show up to protest this sham election and the theft of our nation, the national guard are authorized to kill you, but not if you participate in a violent, Communist insurrection and attempt to overthrow our constitutional republic. Think about that.

Since this thread has traction I'd personally like to know who was the geared up group who ran in hands up from the first barricade to the second. Group of 6/8. A lot was going on as I had just crossed the first barricade myself. They ran in after the initial crowd. I know the guys who tore the first gate apart weren't antifa. Also who are the two older white ladies who positioned themselves near the broken window with megaphones encouraging people inside. It's clear after sitting through all the videos Antifa wanted the entire crowd inside the Capitol and they wanted to destroy it. Some of us more experienced fellahs literally helped the police get the roof line secure because we didn't want idiots clamoring on the roof tops.

Hah. I went from the side when y'all were running in the center. No fence, no police. I just walked in willy nilly.

I'm looking through photos. Remember when the very first guy climbed on top of the right scaffold with An Appeal to Heaven flag and got tackled by police? A little bit before that, I have photos of a group of guys walking with their hands up. They do not look like Antifa. But the group in front of them is a group of boys in all black, skinny jeans and joggers, sagging, masked. Definitely fits the BLM profile.

During that day I thought that group was the one that pushed to the tower but the clothes don't match up. I very distinctly remember a female in the group with a magenta long sleeve shirt. Man I would love to sift through the cctv footage. Police def got violent first and maybe they figured the gas would keep the crowd back but it only caused people further back with no context to push up. The guy on the right got caught the second guy on the left got away was pretty funny Largest cheer of the day was when the giant flag got draped over the stands.

Have you ever once seen a Trumper go to a Rally with FULL FACE GA MASKS?

ON the other hand... if you look into ANTIFA- they ALWAYS show up:

in groups, in black - lots of black, with special markings identifying them - but not known to others, with face coverings - to hide identity, with 'home styled weapons' including bats, hammers, clubs, bike chains/locks -etc -

items that they can say 'were not weapons'- (another lie.) and with protective equipment ready for rioting including: gas masks, goggles, chest protectors, shin pads, helmets, etc.

Trumpers NEVER show up with any of this - never ever ever.

You shouldn't be bragging about giving up. Y'all didn't protest anything or accomplish anything.

All you had to do was SIT DOWN. A sit-in is a form of peaceful protest that has been used historically in the united states because it is hard for it to be portrayed as violent.

All you had to do was literally sit there and do nothing and you went home because a liberal mayor put a curfew into effect.

Not something worth bragging about or pining.

The DC police locked the doors to the hotels from the outside later that evening.

Completely unsafe and illegal, but it happened.

I saw the video too. They police took a long metal pole and inserted it through the two glass door handles, basically locking them in

I saw the video, too. It was posted here on TD, but looks like that video has been removed:

Just wait until the Fire Marshall hears about this!

Seriously though, domestic terrorists that go home when the President asks, sit patiently in their hotel instead of breaking their way out which would be the appropriate thing to do

If this was a riot these were the worst rioters ever. Maybe they had something else in mind?
